

# Minor Access Point Upgrades

1 Tafelberg Road: Platteklip Gorge

2-5: Platteklip Gorge upgrade

6 Tafelberg Road: S-Bend

7-8: S-Bend parking upgrade

9-10: Lion's Head parking upgrade

## Expanded Public Works Programme

In March 2004 the Department of Environmental Affairs and Tourism (DEAT) granted Table Mountain National Park (TMNP) R35 million to run a three-year Expanded Public Works Programme (EPWP). The aim of the programme is threefold:

- to create conservation and tourism-based training and skills development opportunities for 450 people from the townships bordering the Park,
- to develop a strong and durable infrastructure that will minimize the impact of the TMNP's annual 4.2 million visits on the Park's biodiversity,
- to create a high-quality tourism infrastructure to help realise the TMNP's goal of becoming the world's premier urban National Park by 2010.

Workers who have been trained under the EPWP will all have developed skills that will enable them to compete on the open market once the programme is complete.

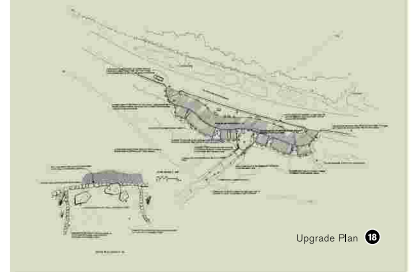

11-15: Drainage repair at Noordhoek Beach

## Future Upgrade: Glencairn Expressway - Jonkersdam

16-17: The site as it looks today

Upgrade Plan 18

## Minor Access Point Upgrades

As TMNP is primarily an open access park there are numerous points from which TMNP's annual quota of 4.2 million visitors can enter the Park. Several of these are more utilised than others and a selection has been identified for improvement. Through improving and formalising a selection of access points it is hoped that it will contribute to our management of visitors and encourage higher use in those areas. This will serve the twofold purpose of having in place high quality, durable tourism facilities that can cope with increasing visitor numbers while lessening the impact on other areas.
